## **The Marge Mitchell Community Service Award** Being Presented Tonight to

*Karen Watson Reeves / The Yoga Place*

The Marge Mitchell Community Service Award began as a nod to members in the community who went above and beyond to spread the word about Our Promise. Marge Mitchell was a member of our original Our Promise Board of Directors and was by far our biggest ticket seller to our events! When she passed away, we knew we had to honor her with this award. Our Promise has been very blessed by those that choose to give back to the cancer community!

### **Previous Winners include:**

2013 - Magic Springs, 2014 - Family of Marge Mitchell, 2015 - Wilson Real Estate Auctioneers, Inc., 2016 - The Hot Springs Debutante Coterie, 2017 - Lauray's the Diamond Center and 2018 - Dr. Brian Peters

## **The Karen Rutledge Survivor Award** Being Presented Tonight to

*Susan Scarborough Burton*

The Karen Rutledge Survivor Award began as a thank you to local cancer fighters and survivors that help Our Promise in many ways. Whether it be by telling others about us, encouraging other patients to apply for assistance, volunteer with our efforts or donating their time, talents and treasures to our foundation, our award recipients have been the best of the best. Karen Rutledge was our number one fan in the beginning days of Our Promise. She fought multiple different cancers for many, many years. She's the epitome of a true fighter and that is why we named this very important award after her.

### **Previous Winners include:**

2013 - Susan Goodrum, 2014 - David Switzer, 2015 - Patty Roddenberry, 2016 - Benny Arego, 2017 - Bill Barnes and 2018 - Francis Iverson

**The Marge Mitchell Community Service Award**  
Being Presented tonight to

*Karen Watson Reeves / The Yoga Place*

I first learned of Our Promise Cancer Resources through social media and first reached out to Stacey (whom I knew only casually at the time) in the winter of 2012. I was a relatively new yoga instructor and had been invited by Duke University Integrative Medicine to attend an intensive sixty hour training for Cancer Awareness. The word "Resources" sprang out to me because I was short of the necessary resources to apply. After a gracious conversation, I learned the true mission of this organization. Fast forward to the fall of 2013 when Stacey contacted me, asking if I would be interested in leading yoga to a support group that was meeting at Genesis. My response, "You better believe it!" Next in the saga, another invitation from Duke arrived in my mail that fall and with some generous benefactors, I applied and was accepted to attend the training in the summer of 2014. It was hard and humbling and filled me with hope. Maybe I COULD do something to support the warriors fighting cancer and recovering from cancer and hoping the cancer never returns. There were instructors at the

training from all over the country and Canada. A primary take-away for me was that the other participants in the training were going home to figure out how to get the medical community in their towns to support them, I already had the support of Dr. Tim Webb, Genesis Cancer Center, and Our Promise Cancer Resources!! The gal from Arkansas was ahead of the game.

The yoga classes for these brave souls was moved to my studio at Whittington Place, and because of the generosity of Our Promise, there is no charge to the cancer warriors and a friend to attend. In these classes, the participants have an hour to get stronger, more balanced and flexible in their bodies and minds and souls. And it offers them at least an hour in the day NOT to think about the word cancer. They learn to breathe through the moment; they learn how strong and brave they are. And even on days when all they feel like doing is sitting in the chair and taking deeper breaths, they leave with a more serene demeanor. When the cancer became too much a few days ago for co-honoree and long-time friend, Susan Scarborough Burton, to continue to fight, it fired me up to work even harder, to be more passionate than ever, to give support to all those still in the midst of the battle. I talked to Susan's husband, Brooks, a few hours after she was moved to the hospice floor, as I was driving home from a visit with my own family. I have no idea the intent of the audience of Adam Levine's song, "Memories", but it played on the radio after I talked to Brooks. I then downloaded it and have listened to it many times during these past days. As I share some of the lyrics (Adam's poor grammar, not mine!), I ask that you lift a glass. Cheers to Susan! Cheers to every face and name that are burned into your soul, the cancer warriors, the ones who fought valiantly and now have their rest. . . the ones still in the battle! Our Promise Cancer Resources is here for YOU!!

"Here's to the ones that we got, Cheers to the wish you were here but you're not  
Cause the drinks bring back all the memories  
Of everything we've been through  
Toast to the ones here today  
Toast to the ones that we lost on the way  
Cause the drinks bring back all the memories  
And memories bring back you  
There's a time that I remember when I did not know no pain  
When I believed in forever  
And everything would stay the same  
Now my heart feel like December  
When somebody say your name  
Cause I can't reach out to call you, but I know I will one day.  
Memories bring back you. . .

Susan S. Burton was diagnosed with Stage 4 breast cancer in the spring of 2016. After completing her last chemotherapy that summer, Susan recovered, SURVIVED. Upon beating those incredible odds stacked against her, she returned to work and to her zest for life, enjoying many trips and concerts with her husband, Brooks, her family, and her friends. She especially enjoyed her role as “Honey”, as her grandchildren called her. Susan loved her grandchildren and spoiled them rotten. Her favorite thing was taking them to her “happiest place on earth”, the beach. Susan was a tough, classy and independent woman, and her love for those around her radiated from her, even on her bad days. One of her other great loves was service to others who were walking the same road as she. Susan dedicated time and resources to Our Promise Cancer Resources. At the yearly Tailgate fundraiser, she, along with her family and friends, were always so lively and supportive of Our Promise, raising thousands of dollars for cancer patients.

In February 2019, Susan received the news that no survivor ever wants to hear, a new cancer diagnosis. Her breast cancer had moved to her brain. In true Susan form, she began the fight again with radiation treatment. She fought with strength, bravery and endurance, with her loving husband, Brooks, right by her side. In the early morning of October 1<sup>st</sup> (ironically the beginning of Breast Cancer Awareness Month), it was time for her to let go. She will be missed every day, but never forgotten, and her name and memory will live on as the Our Promise House comes to be a reality.

This award is being accepted tonight  
by her loving husband, Brooks.

# How does Our Promise benefit the community?

Our community extends out to the surrounding 21 counties with patients in the Central & Southwest Regions of Arkansas that travel to our area for treatment. Our Promise provides direct financial assistance to local cancer patients in the form of gasoline cards, household bill pay such as mortgage and utility bills, free yoga as cancer awareness classes, wig and head cover assistance and prescription co-pay assistance.

# What is The Clover Club???

Back in 2012, it came to our attention that many cancer patients and their caregivers were having to travel long distances to receive treatment in Hot Springs. Fighting cancer is hard work and having to travel far from home can make it even harder. Added to that was the worry of finding a place to stay and how to pay for it. We started thinking of a way to take that stress off of the patients and offer them a respite from worry and a place to call home when they needed it.

Our Promise Cancer Resource House is just that place. Although in the planning stages right now, we envision a lodge-like setting where patients and their caregivers can retreat after a long day at the doctor, relax in a homey environment and focus their energy on getting better rather than on travel and financial worry. At The Our Promise House, we will offer patients meals, fellowship, information and most importantly, HOPE to see each new day as an opportunity to persevere and get better.

That brings us to the Clover Club! Much like the plant, or “weed” that gives us our name, your generosity springs forth hope, faith, love and, some believe, luck to the patients. Just as the white flower of this little plant breaks through to thrive in the weeds, so will the patients... with your continued support of The Our Promise House.

As a Clover Club member, you pledge to financially support The Our Promise House and what it stands for. You also will have access to special volunteer opportunities within the House...answering phones, providing meals and snacks, helping with support groups and so much more. The Our Promise foundation doesn't just strive to help patients financially, we want to take care of the patient and their families as a whole.

If you want to know more about The Clover Club, please ask!! We would love to have you as a fellow Clover.

You can be assured that we will keep striving to build our membership in the Clover Club and will keep working diligently on the plan to make this dream come true... because “We Promised”!
